NEW PLANT TO MAKE OIL FROM CORN KERNELS:  
SUGAR RATION INCREASED

NEW PLANT TO MAKE INDUSTRIAL OIL -- Borba, No 80, 4 Apr 49

Machinery is now being installed in the new factory for the production of industrial oil from the germ of corn kernels at Osijek in Slavonia. The factory is located near the Prva Osjecka Fabrika Sapuna (First Osijek Soap Factory), to which it will supply raw materials for making soap. The new factory is expected to begin production on 1 July 1949.

The oil factory is located in the immediate vicinity of the corn-growing district, from which it will obtain its raw material.
